Back Yard Dream

Indoor Booth 1165

A new patent pending building method that produces the highest quality of outdoor living masonry structures from conception to completion. The structures are made of 11-gauge steel wire frame, diamond lath and plaster forming a durable concrete appearance structure. It comes with a 4-stage vent system.

Bernard Dalsin Manufacturing Company

Indoor Booth 1213

BDM BioVent® One Piece Elbow

Bernard Dalsin Manufacturing introduces our new completely leak proof BioVents® one-piece elbow. The inner flue of the elbow is now made from one continuous piece of AL-294C, super ferritic stainless steel that can withstand exhaust from bio-fuels. And, this new elbow also uses our gasket-sealed connection.

Central Boiler

Outdoor Booth 5052

Maxim® M250

The Maxim M250 was tested to the EPA Phase 2 Hydronic Heater program and achieved efficiency of over 95%, a heat output rating of over 212,000 BTU/hr and heat output annual average emission level of only 0.06 lbs/million BTU. It has the highest efficiency and heat output rating and lowest emissions of all EPA Phase 2 qualified models.

Central Boiler

Outdoor Booth 5052

E-Classic 1400

Central Boiler announces the E-Classic 1400, which meets the .32 lbs/million BTU output emission limit for Phase 2 of the Hydronic Heater program for measurement of particulate emissions and heating efficiency of outdoor wood-fired hydronic heating appliances.

Classic Flame

Booth 1935

The Carmel Plug n' Play

The home theater electric fireplace by ClassicFlame, features an integrated PowerCenter using Monster Power and a top mounted, ready to use, iPod dock. The beveled base and raised moldings applied to face add to the Carmel's beauty while built-in media cabinets and wire management channels add to its functionality. The Carmel comes in a stunning Antique Walnut Finish. 55"w x 37.25"h x 18"d

Fireplace Solutions

The in-fireplace electric flame effect insert operates with or without heat and plugs into any 120 volt 3-prong electrical outlet. It is energy efficient LED technology with glowing log and ember bed that looks realistic on or off. It includes a multi-function remote control and runs on 1,350 watt with a 4,600 BTU's/HR forced air heater that can warm a room up to 400 sq. ft.

Grand Canyon

The 28" Grand Canyon electric fireplace by ClassicFlame is hand-crafted from cultured stone with an impressive 3" thick mantel top that's accented by decorative corbels crafted from oak solids and veneers in a rich, distressed oak finish, 56"w x 43.5"h x 17"d 28WM913.

Wall Hanging Electric Fireplace

The fan-forced heater is operable at 2 settings - High (1,300 Watts) and Low (650 Watts) – and comes with a realistic flame effect that works with or without heat. The LED backlight glows with three changeable colors: Blue/Yellow/Pink. Translucent rocks are included it is operated with a slim-line multifunction remote control. The dimensions are 35"w x 16.5"h x 4.75"d.

Clear Skies Unlimited

Indoor Booth 779

HearthCAT Fireplace Technology

Clear Skies Unlimited has successfully tested an Emission Control System for wood burning fireplaces. The HearthCAT System reduces particulate in open hearth wood burning fireplaces by as much as 90%. The HearthCAT Technology easily meets the ASTM EPA Phase II particulate emissions requirement for low mass, site-built masonry and existing masonry fireplace retrofits.

The Companion Group

Indoor Booth 2811

The TurboQue™

GAS GRILL SMOKING just became a category! Everyone is familiar with the convenience a gas grill brings to backyard grilling but now, with the introduction of the TurboQue™ from The Companion Group, getting “true barbecue” flavor on that grill became a reality. Convection technology, combined with real wood smoke, will result in oohs and aahs from your barbecue guests! Reduce cooking times by 20%, save money, add flavor! Battery-operated, fits most gas grills via the rotisserie notch, multiple patents are pending.

The Companion Group

Indoor Booth 2811

V-Shaped Gas Grill Smoker Box

Delivering that great smoky flavor to your gas grill is made easy with The Companion Group's V-Shaped Gas Grill Smoker Box. Designed to fit between the heat deflection

bars right next to the flame, this smoker box heats up quickly to send hardwood smoke wafting around and into your grilled foods. For extra smoky flavor, place directly under the foods you are grilling or, even better, use in combination with the TurboQue™. Multiple patents are pending.

The Companion Group

Indoor Booth 2811

Sliders Are a Hit!

Mini-burgers, known by some as “sliders,” are the hottest little food item sweeping the nation. Burgers have been an American staple for generations. A new generation has embraced this classic in miniature form. Half the size of a regular-sized burger, yet twice the fun, sliders are the perfect party food for your next BBQ. Our Slider Set includes a non-stick mini-burger basket that holds nine burgers and a plastic mini-burger press that makes every patty perfectly shaped.

Patio Lantern™

The Patio Lantern™ provides light and style to any outdoor living area or on the beach for an evening under the stars. Made in the USA of high-quality aluminum, exterior grade powder coat finish and tempered glass. Available in 3 sizes; 28”, 36” and 42”.

Dimplex

Indoor Booth 326

PowerChef Convertible Electric Grill

CBQ-120-E

This new, sleek design shrouds the high-performance grill within. Dual elements spread searing heat from corner to corner and innovative controls make it easy to cook like a pro.

Electric Umbrella Heater

PUH1500

When there's a chill in the air, the Dimplex Umbrella Heater is there. Radiant elements warm like the sun, bringing you carefree evenings of quiet warmth and safe electric operation.

Fieldstone Electric Fireplace Package

SMP-904-ST

Capture the feel of a private retreat with this rustic fireplace featuring life-like stone, hand-hewn pine and the 26" self-trimming electric firebox with patented Dimplex flame.

Convertible Compact Electric Fireplace

CFP3902BW

Offering total decorating flexibility, this handsome fireplace easily converts for use along a flat wall or in a corner. The warm burnished walnut finish is accentuated by artful leaf carvings.

Marana Media Console

SAP-500-B Black Finish

Elegant, clean styling sets the stage for today's home entertainment experience. Black cabinets with smoke-glass doors provide room for components, while a sturdy glass top can support a 60" TV.

Novara Media Console

SAP-300-B Black Finish

This contemporary design turns an entertainment center into a real showpiece. The sturdy, mitered wood frame supports tempered glass shelves with easy access to components, plus ample storage space.

Gibbons Media Console

SAP-350-B Espresso Finish

The handsome matte black cabinet fits beautifully into any décor - components slide easily into the open shelf above the firebox, while six storage drawers provide plenty of storage space.

DTG Inc./Electri-Chef

Indoor Booth 535

Created for the low and slow griller with superior non-stick

Grill Innovations LLC

Indoor Booth 881

The Grill Plate

A unique double-plate with V-shaped bottom that allows grills to be used as convection ovens. This special design creates a convection effect, which prevents burning while over direct heat. The Grill Plate allows you to easily bake casseroles, pastries, lasagna, etc. It is a new option allowing grills to become outdoor convection ovens.

Hearth & Home Technologies, Inc.

Indoor Booth 1177, Outdoor Booth 5205

Heat & Glo LUX60™

This is the most daring and aesthetically stimulating member of the Heat & Glo Modern Collection. It is a large-scale direct vent gas fireplace for sophisticated homeowners who want to make a strong statement with their fireplace. Tall flames originate from a sculpture burner with randomly placed stainless steel tubes that illuminate with the fire's heat and are accented by LED lights.

Heat & Glo 6000CLX/8000CLX

This fireplace has two exciting new additions – the 6000CLX (36-inch) and the 8000CLX (42-inch) direct vent gas fireplaces. With the industry's most advanced

technology for realistic flames, their fireboxes also have LED accent lights that are aesthetically pleasing even during warm months when most fireplaces are resting.

Heatilator Novus™ Evolution

The Novus Evolution is the first modern style direct vent gas fireplace to join the popular Heatilator Novus Series, which earned a *Consumer Digest* Best Buy in 2008. With contemporary lines and flames that protrude from a generous bed of glass media, the Evolution has a price tag that's appealing to first-time home buyers.

Heatilator Aveo™

Designed to fit the tightest of spaces, the Heatilator Aveo can be framed to one foot, eliminating the need for a chase or "dog house" on the outside wall of the home. Great for townhouses, condos, apartments or small rooms, the direct vent gas Aveo can pump out 18,000 Btus per hour, providing comfortable heat output.

Heatilator Rave™

For homeowners who want a rectangular, linear modern style fireplace at a reasonable price, Heatilator introduces the Rave. This direct vent gas fireplace features black or crystal glass media and an elongated ribbon of flames that dances across the entire length of the firebox.

Heatilator Novus™ nXt

The Heatilator Novus nXt is a value-priced, high efficiency direct vent gas fireplace that kicks out 30,000 Btus per hour for great supplemental heat. It saves energy with an intermittent pilot ignition and has ceramic glass to radiate maximum heat.

Heatilator PureSky™

Heatilator's new PureSky is the perfect choice for homeowners who want an environmentally friendly, wood burning open fireplace. With the appearance and ambience of a traditional wood burning fireplace, it releases 65% less emissions into the air than standard, exempt wood burning fireplaces. The PureSky installs in the same manner as many of today's zero clearance fireplaces and requires no special structure or venting.

Quadra-Fire_EDGE 60™

The first pellet fireplace ever to hit the market, the Quadra-Fire EDGE 60, is a high performance fireplace specifically designed for supplemental home heating. It can crank out 60,000 Btus per hour – enough to warm 2,500 square feet of living space. It holds 120 pounds of pellets for up to seven days of continuous operation, has an automatic self-cleaning feature and is whisper quiet.

Hearth Products Controls Company

Indoor Booth 1149

Outdoor Booth 5244

Tiki Torch

Our new Tiki Torch controls are available as a kit or complete and ready to install. It is designed to stay lit in winds up to 30 mph and has a built-in flame safety circuit to cut off gas flow if the torch is blown out.

HY-C Company, Inc.

Indoor Booth 1322

Dryer VentGuard

Made of heavy-duty stainless steel mesh, the Dryer VentGuard (DVG) is an effective barrier to small animals, such as birds, squirrels and other rodents. The DVG installs easily over most 3" or 4" dryer or bathroom exhaust vents, and its white powder coat finish is durable and blends into most exterior surfaces.

Jøtul North America, Inc.

Outdoor Booth 51000

Atra Collection

The Adirondack Gas Fireplace Collection, by Atra . Inspired by the design aesthetic from the scenic Adirondack region in New York. Atra designers invoked the region's color palette. Also they tapped into the varied natural materials of the region. Available as both mid- and full-size direct vent gas fireplaces, Atra models meet AFUE furnace-rated standards. Features include standard blower fan, accent lighting, and the ability to duct heat remotely.

Landmann USA

Indoor Booth 1470

Landmann USA Garden Lights Collection Fire Pits

This collection was designed with large 25" steel bowls embellished with classic details found in trellises, urns and planters reminiscent of English gardens. This assortment comes with a space-saving display stand. See all the Landmann USA fire pits, grills, smokers, grates and log storage products at booth 1470.

Le Egg Crate

Indoor Booth 2708

Le Egg Crate

Le Egg Crate is a Kamado grill island that is aesthetically appealing while maintaining utility, durability and mobility. Having two tiers, the bottom tier hosts the grill at standard height, while the top tier provides ample preparation surface again at a standard height of 36 inches.

Minden Grill Company, Inc.

Indoor Booth 1103

Minden Master Range Top Grill

Minden Grill Company's Range Top Grill is the ultimate indoor grilling tool. The grill works on any standard electric, gas or propane stove. It is designed to bring true grilling performance and real barbecue taste to indoor cooking. The unique design allows for authentic open-flame cooking while keeping the mess within the grill.
